## PRESS RELEASE

### LAUNCH OF AUTUMN/WINTER 2024 COLLECTION

Julian Chichester is renowned for his craftsmanship and skill in finding and working with new and different finishes, and the Autumn/Winter '24 Collection sees a strong focus on **French Oak Limed**. Julian's interest in this finish was piqued a couple of years ago when he was shopping in America and fell in love with a stunning 1940s French desk. It featured a stunning finish that emitted a warmth from the subtle off-white lime on beautifully straight, tight-grained quarter-sawn oak.

*"We sourced some similar high-quality veneer from France and worked hard to emulate that look. The result is our own soft sheen French Oak Limed, which, when paired with Brass and Vellum details, creates a truly magnificent effect".*
