

MONTI AQUA COLOR

Los Angeles, CA - May 2024. For immediate release.

Sempli is proud to introduce both Monti- Aqua Mare and Monti-Aqua Terra. Taking our beloved and best selling water glasses, we have re-imagined the set as two multi colored series.

For Monti-Aqua Mare, we drew inspiration from the "mare" meaning ocean in Italian. Each cool tone creates a complementary and cohesive set. These glasses will add a serene and sophisticated touch to any table to create a refreshing and tranquil atmosphere.

For Monti-Aqua Terra, we drew inspiration from the "terra" meaning earth in Italian. Each warm tone creates a complementary and cohesive set. These glasses will add a warm and sophisticated touch to any table to create a cozy ambiance.

With the Monti-Aqua, we set out to design a sturdy water glass that would be utilitarian yet reflect the elegance and unique design aesthetic Sempli stands for. Being the first stackable glasses in Sempli's collection, it makes the Monti-Aqua perfect for both casual entertaining and everyday use. The Monti-Aqua stackable water glasses are handmade to ensure the right thickness for a clean, modern look and lightweight durability. Holding water with ease, you can use them for serving everything from juices and milk to your favorite spirits and cocktails.

Monti-Aqua Mare
