Global Views Inspires Creativity with New Vibrant Introductions and Live Painting Events with Sherwin-Williams at High Point Market

Events will showcase the artistic talents of Patti Carpenter, Jane Dagmi, and George Sellers

Dallas, TX – [Global Views](#), a leading name in the home décor and furniture industry, is set to debut an impressive lineup of over 350 new offerings spanning furniture, lighting, wall décor, decorative accessories, seating, and textiles at the upcoming High Point Market. The prevailing theme highlights bold, pop-art-inspired designs infused with energetic cobalt blues, emerald greens, and fiery reds, elevating each product into a distinctive artistic statement.

Among the highlights of the launch are the exquisite Fused Glass collections, artfully handcrafted by Portuguese artisans. These skilled craftsmen meticulously layer translucent glass with vivid-colored sand, resulting in a stunning fusion of colors and textures. Additionally, the debut includes new ceramic accessories adorned with captivating cobalt blue and emerald green reactive glazes, each intricately embellished with hand-applied design details.

David Gebhart, President of Global Views, shared his excitement about the Spring/Summer 2024 launch, expressing, “We are celebrating the kaleidoscope of creativity by artisans worldwide and embracing the vibrant energy of the season. Our palette bursts with bright hues, igniting our customers' spirits and invigorating their style.”

To commemorate the celebration of creativity and innovation, Global Views and Sherwin-Williams are delighted to invite market attendees to three live painting events featuring the iconic Global Views ceramic Hands Stool as the canvas. For over a decade, the Hands Stool has captivated audiences with its humorous design and enduring appeal. Artists Patti Carpenter, Principal at Carpenter + Company and Global Trend Ambassador for Maison & Objet, Jane Dagmi, Managing Director of High Point x Design, and George Sellers, Creative Director at Global Views, will each lend their talents to produce unique one-of-a-kind stools.

The beautiful creations will be prominently displayed in the Global Views showroom throughout the market before being gifted to High Point x Design.
